

Quality Policy

Telemisis always strives to provide our customers with high quality telemetry systems backed by a high level of technical support from a friendly, customer-focused and skilled workforce.

Telemisis are independently assessed by an accredited organisation to ISO9001-2015.

Our management systems ensure we comply with customer, statutory, legal, regulatory and internal Telemisis requirements and provide continual improvement of service, efficiency and infrastructure.

Telemisis' objectives are focused on our commitment to the developing needs of interested parties and are a key part of our regular management reviews.

Telemisis is committed to exceptional customer relationships and to fostering happy and motivated personnel. Everything that Telemisis does as a company is focussed upon continual improvement.

Telemisis management ensure that, as far as possible, our personnel adhere to the quality management system, particularly in regard to our Customer Focus Policy, all regulatory/legal requirements, and that they are aware of the importance of doing so.
